

Spare Sensor Parts

Guided Ultrasonics Limited carries a wide range of spare parts for our equipment. In this form the most commonly required spare parts are listed. A Ring Spares Kit, that includes the replacement items that may need maintenance, is available for either inflatable rings or solid rings.

Please note that GUL only sells spares for owners of GUL equipment to repair their items; we do not sell spares as individual items.

For a quotation, please fill this form and email it to repair@guided-ultrasonics.com.
